

# iPOS eProcurement

The most widely used web purchase to pay solution by Infor SunSystems sites

Customers say the greatest benefit of iPOS over comparable solutions is the unparalleled integration with Infor SunSystems.

**A wide variety of industry sectors use iPOS to address their procurement needs**

**18%**  
Government & Public Sector

**15%**  
Not for Profit & Associations

**15%**  
Financial Services

**13%**  
Hospitality & Leisure

**12%**  
Social Housing

**11%**  
Media & Technology

**10%**  
Services & Healthcare

**6%**  
Energy, Oil & Gas

**iPOS's native integration provides:**

1. Real time visibility
2. Accurate budget checking
3. Reliable transaction posting

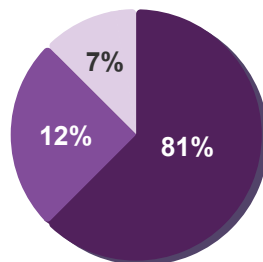

**iPOS is a true Procure to Pay solution**

- Seamless process from point of requisition, through, order to payment.
- Automated processes introduce efficiency controls.
- Enforce buying controls.
- Cross-reference purchasing budgets.
- Ensure compliance with pre-defined buying limits.
- Rules based approval.
- Automatic PO conversion.
- Sent electronically to supplier.
- Accept electronic invoices.
- Reconcile complex and multiple supplier statements.
- Reconcile orders, goods receipts, and invoices.

**iPOS' seamless links into Infor SunSystems, plus the fact it offers all the functionality we were after, as well as smaller technology footprint and lower cost, made this a very easy decision in the end.**

*Project Manager,  
Social Housing*

**Works for all sizes of organisations, whatever the version of SunSystems**

- 81% - > 500 users
- 12% - 250-500 users
- 7% - < 250 users
